A MESSAGE FROM

Mr. Graber

CLARK MIDDLE SCHOOL PRINCIPAL

Happy April! I hope this newsletter finds everyone ready for Spring. With the rain and sunshine (hopefully seeing it soon), the grass will turn green, trees will begin to bud, and the critters will start to be visible. I can't wait for Spring and to be outside.

At Clark, the students and staff are gearing up the ILEARN testing sessions which will begin on April 17 and go through May 12. See the schedule below for actual testing times during the testing window:

ILEARN TESTING SCHEDULE

Monday, April 17—testing from 8:47-11:19 (Grades 5-8)

Tuesday, April 18---testing from 8:47-11:19 (Grades 5-8)

Wed-Friday (Regular schedule—make up testing)

Monday, April 24—testing from 8:47-11:19 (Grades 5-8)

Tuesday, April 25—testing from 8:47-11:19 (Grades 5-8)

Wednesday, Apr26—testing from 8:47-10:25 (Grades 5/6 ONLY)

Thursday-Friday (Regular schedule—make up testing)

Parents, please help us with the testing process by doing the following items:

- Have your child in attendance daily. Students are required to take a practice test in each subject area prior to the regular tests. If they are absent, then it delays the process.
- Have your child eat a good breakfast the days that we are testing.
- Please try and schedule appointments, if necessary, in the afternoon so that your child can come to school for the tests.
- Please remind your child that no cell phones or smart watches/devices are allowed in the testing area except for those that are needed due to medical issues. As principal, I have to notify the IDOE in regard to students that will have a medical device on them during the testing sessions.
- All make up tests will take place during the school day. Students that are absent will need to check their CANVAS accounts to see what assignments need to be completed.

Thank you for your patience with us as we continue with our new entrance procedures. I have heard many positives about the changes that have taken place. As a reminder, please send in a note with your child if you are going to pick them up early so that they will be ready when you arrive. With medical issues, our school nurses will bring your child to do the door and speak to you regarding the medical concerns. Thanks again.

Congratulations to our Band and Choir departments for receiving Gold and Gold with Distinction ratings. They were AWESOME!! Kudos to Mrs. Arroyo and Mr. Walton. Also, a special congratulation goes out to Harper Whiteman, JR ALL STATE BAND selection winner, and Audrey Bergman for placing Gold with Distinction in her solo and ensemble performance at the state level.

Continued from page 1

Audrey is only the 2nd CMS recipient to win this honor. Great job.

Spring track is here! Can't wait to see our athletes perform in the events. If you have time, come out and cheer for the Coyotes. All track meets take place by the football field area and the schedule can be found on Eventlink.

Summer school letters were sent out by our Central Office during the week of April 3-7. If you receive a letter, please consider signing your child up for summer school. Summer school will take place at CMS this year and transportation is provided. Unfortunately, there is criteria that is considered in regard to those individuals who have received letters. If you have a question, please reach out to your child's guidance counselor.

Communication is still the key for success. As a reminder, CMS offers free tutoring every Tuesday and Thursday morning beginning at 8:00. Students can visit any teacher that they have for additional help. Feel free to contact me if you have any concerns or issues.

Until next month, stay safe.

Mr. Graber

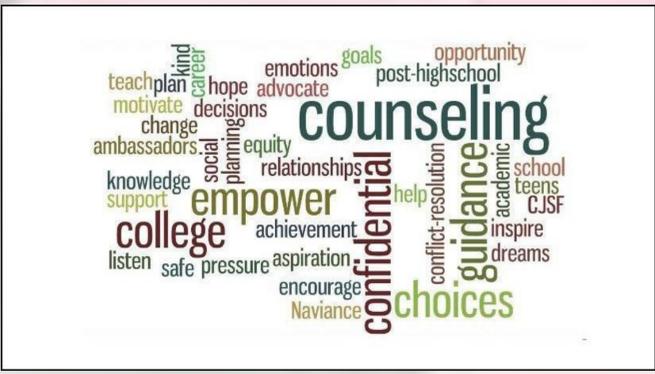

Student SPOTLIGHT

on March 17-19th. He dropped times and is now ranked 13th in the State for the 50 Breaststroke for 11-12 year olds, 14th in the State for the 100 Breaststroke, and 22nd in the State for the 100 Butterfly. All of these accomplishments come at the heels of having hand surgery and missing some time in the pool. Never discouraged, Cole used his time designated for swimming to work out and stay in shape for the season. Cole is now ready to start baseball season all while continuing to earn straight A's. Congrats to Cole for being an amazing Coyote!

Congratulations to Cole Evans on his amazing swim season. Cole is a 6th grader who just began swimming 16 months ago and has already qualified for 3 State Cuts. He earned a cut in the 50 Breaststroke, 100 Breaststroke and 100 Butterfly. He swam in the State swim meet at the IUPUI Natatorium

We are in the home stretch of the school year! That is how it often feels after spring break during the final grading period. However, we do not want our students to lose momentum- we are still working toward the same goal of having a successful year. It is important to continue to put in a full effort until the finish line is reached.

ILEARN testing is an important part of this month. These academic tests are taken in order to determine each student's progress and growth every year. We always encourage our students to get a good night's rest and eat a healthy breakfast before testing days.

When parents or students are concerned over academic progress, motivation, scheduling, or emotional concerns, Clark counselors are always glad to offer support. Students can request to see their counselor through online request, via email, or by completing a form in the office.

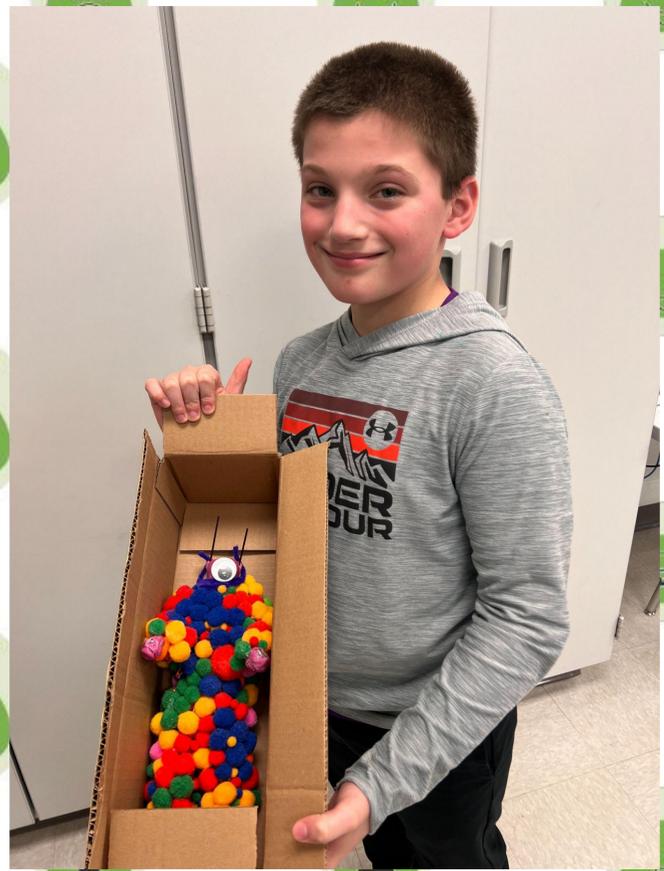

Happy Retirement

The Help Club joined forces with Mrs. Genovese in the Library to thank our custodians for keeping our school clean throughout the year. The banner was created by the Help Club to express our school's appreciation for all the work they do to keep our school clean and to bid a fond farewell to our beloved custodians, Joan Niemzyk, Dale Lambert, and Terri Woelfer who are retiring after this school year. We wish you all the best in your retirement! We'll be a mess without you!

Ms. Szymaszek's 5th-Grade class traveled the universe and studied the planets on a quest to create the perfect aliens! After learning about the planet, students put their creativity to work designing aliens. They had to consider the atmosphere, composition, atmospheric pressure, gravitational pull, and all other characteristics of their chosen planet. They would then try to imagine what kind of life could exist on the planet they researched.
